## GENERAL INFORMATION

Effective July 1, 2003, the rate of state and local sales or use tax applied to a retail sale of goods and taxable services is determined by a series of “sourcing rules.” A complete discussion of these rules is found in our Notice 03-04, Destination-Based Sourcing Rules, available from our web site or office shown on the front cover. As a general rule, the rate of tax is determined by where the customer takes possession/delivery of the property or taxable service provided as outlined below.

The “location of the sale” is defined as follows.

### **For Retailers located within Kansas:**

- for over-the-counter sales, collect the rate of tax in effect at your place of business.
- for all other sales, collect the rate of tax in effect where your customer takes delivery – this is normally the rate of tax in effect at the customer’s shipping address.

*EXAMPLE #1:* On July 1, 2003 a customer enters Joe’s Hardware in Pittsburg, Kansas, makes a purchase and takes possession of the item upon leaving the store. The combined rate of sales tax due is the rate in effect at Pittsburg, Kansas (where the customer took delivery) is 6.8%.

*EXAMPLE #2:* On July 1, 2003 a customer enters Joe’s Hardware in Pittsburg, Kansas, purchases an item and arranges for the item to be shipped to him in Columbus, Kansas. The combined rate of sales tax due is the rate in effect at Columbus, Kansas (where the customer took delivery) is 7.3%.

### **For Retailers located outside of Kansas:**

- for all sales, collect the rate of tax in effect where your customer takes delivery – this is normally the rate of tax in effect at the customer’s shipping address.

*EXAMPLE:* On July 1, 2003, a Kansas resident buys a desk from a Nebraska retailer. The desk is delivered to his home in Topeka for \$1,000, including delivery charge. The Nebraska retailer will collect the Kansas retailers compensating use tax on this sale at a rate equal to the state and local sales tax rate in effect in Topeka of 7.2%.  $\$1,000 \times .072 = \$72.00$ .

## TABLE A – KANSAS INCORPORATED CITIES

Use **TABLE A** if the “location of the sale” (definition on page 2) is **within the city limits** of any city listed in this table. If the city is not listed in TABLE A, or if the location of the sale is **outside the city limits**, use TABLE B beginning on page 18.

If the location of the sale is within a special jurisdiction (e.g., racetrack or transportation district), use the codes and tax from TABLE C.
